At Talent, we're passionate about living our values and giving back, so in 2021 RISE Day was born.

RISE Day is a chance for all team members globally to put their usual work aside for the day and volunteer their time on the phones speaking to young people who may be experiencing barriers to employment. We aim to give each of these young people free support, guidance, access to tools and a spot on our RISE database where they can get access to workshops, industry events and job opportunities.

#OneTeam Plan

What is it?

Everyone deserves a slice of the pie and at Talent we are the only recruitment company making sure you get the flavour you want. We are talking about our #OneTeam share plan scheme which allocates shares of the business directly to you.

Our incentive is inclusive to all Talent team members and directly links to the success of the business from everyone's hard work.
